Learning & Development Specialist with 2+ years designing, developing, and delivering training programs at a Singapore-based AI company. Developed 4 curriculum modules and led 5 programs end-to-end, contributing to 350+ learners trained across public, corporate, and institutional programs with 9.0/10 satisfaction. Brings a proven track record in instructional design, blended learning facilitation, curriculum development, community building, and content production, with hands-on experience managing the full program lifecycle in fast-moving environments.

WORK EXPERIENCE

Terra Weather Pte. Ltd.

Singapore (Remote)

Learning and Development Specialist

Jul 2025 – Jul 2026

- Developed 4 GenAI training modules spanning business, education, and product management tracks, equipping corporate learners with applied AI competencies from foundational to production-ready level
- Led 5 learning programs end-to-end, from curriculum design and promotion to live delivery, reaching 150+ participants across webinars and workshops and upskilling 6 university lecturers through a Train the Trainers initiative
- Conducted outreach to 30 AI4Impact alumni, interviewed 8, and produced 4 testimonial videos, strengthening program social proof and supporting learner acquisition across social media channels
- Engineered an end-to-end B2B outreach automation pipeline in Python, leveraging LLM APIs to process ~3,000 leads and surface 600 qualified prospects via LinkedIn and Apollo.io
- Reduced per-prospect email preparation time by 83%, from ~30 minutes to under 5 minutes, saving 1,250+ hours across the lead pipeline through intelligent automation
- Deployed 9 specialized AI agents across the CRM pipeline, covering lead qualification, company profiling & research, cold email drafting, follow-up management, and inbox monitoring, building a fully automated outreach system with human-in-the-loop approval prior to sending

AI Training Specialist

Feb 2024 – Jun 2025

- Trained 100+ students and professionals on generative AI, prompt engineering, and chatbot development, delivering customized curriculum for partners ranging from startups to multinational companies
- Achieved 90%+ learner satisfaction across all cohorts by implementing structured feedback loops, iterating curriculum in real time, and delivering responsive learner support
- Managed end-to-end session delivery using a 20% instruction, 80% practice framework, incorporating project-based assessments and learner progress dashboards to track skill development across cohorts

Bangkit Academy

Singapore (Remote)

Machine Learning Mentor

Feb 2023 – Jan 2024

- Mentored 50+ students from 25+ universities across Indonesia in a top program organized by the Ministry of Education, contributing to a graduation rate above 90%
- Conducted 40+ weekly sessions covering technical skills, soft skills, and engagement activities to sustain learner motivation.
- Liaised between participants and the Bangkit team, coordinating with 20+ industry and academic experts to improve online learning experiences.

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

Google Developer Student Clubs (GDSC)

Tasikmalaya, Indonesia

Chapter Leader

Aug 2021 – Jul 2022

- Founded the first GDSC chapter at Siliwangi University, growing to 100+ active members within its inaugural year
- Co-organized 4 national events, spanning webinars and hackathons, drawing 500+ participants across the developer community

Generasi Baru Indonesia (GenBI)

Tasikmalaya, Indonesia

Competition Coordinator & Media Staff

May 2021 – Apr 2022

- Coordinated 80+ Bank Indonesia scholarship recipients to drive QRIS adoption campaigns, advancing digital payment literacy
- Produced event documentation and promotional videos using Adobe Premiere, supporting GenBI's community outreach.
